

Welcome to Sparsh Trading Customer Guide

This manual guides homeowners, architects, civil engineers, and commercial builders on how to explore products, place custom fabrication orders, request on-site laser measurements, and track production status in real time.

Direct Co-Founder Helpline:

- Ankush Mishra (Co-Founder): **+91 87956 62161** (WhatsApp / Phone)
- Adarsh Singh (Co-Founder): **+91 70077 10096** (Commercial Inquiries)

Available Monday to Saturday: 8:30 AM to 8:00 PM

1. How to Browse Products & Services

1. **Products Catalogue (/products):** View Tata Steel Chaukhat, PPGI frames, uPVC windows, frameless glass railings, CNC main entrance gates, and modular kitchens.
2. **Interactive Before & After Slider:** Visit the homepage to compare old wooden frames and iron grills with Sparsh engineered products.
3. **Regional City Pages (/locations/pratapgarh, /locations/sultanpur, etc.):** Check regional installation teams and local projects in your district.
4. **Multilingual Translation:** Click the globe icon (🌐) in the top navigation bar to switch between **22 Indian languages**.

2. How to Place a New Order or Request Quotation

STEP 1 Create an Account or Login: Click **Register** (or **Login** with your user icon) in the header using your name, phone number, and password.

STEP 2 Navigate to "Place New Order": Open /dashboard/new-order from your customer portal sidebar or mobile header.

STEP 3 Fill in Project Details: Select your product type, enter dimensions (e.g. 7x3.5 ft, 8 frames), and specify delivery location.

STEP 4 Instant WhatsApp Dispatch: Submit the form and click **"Send via WhatsApp"** for instant priority booking.

3. Live Order Tracking & Milestones

Your custom order goes through verified workshop quality stages:

Stage	What Happens at Our Workshop	Customer Notification
1. Measurement	Technical team visits your construction site with digital laser tools.	SMS / WhatsApp visit confirmation
2. 3D CAD Drawing	AutoCAD cut-sheet blueprint generated to exact millimeters.	Design approval shared
3. Fabrication	Hydraulic press bending, TIG/MIG welding, and frame mortising.	Live production WhatsApp update
4. Anti-Rust Coating	Zinc chromate primer and baked electrostatic finish applied.	Finishing notification
5. Installation	Technicians arrive on-site with anchor bolts for neat fitting.	Dispatch & fitting team alert

4. Sharing Designs with Architects & Contractors

Every product detail page features a green " **Share on WhatsApp**" button. Click it to immediately forward the high-resolution CAD photos and structural specifications to your building contractor or family members.
